

Normandie

minimum opening 1750 mm

To establish the amount of floor space (Going) the **Normandie (Cottage)** Staircase will take up all depends on your Floor to Floor height. By looking at the above diagram will give you a guide to the floor space (Going) that will be required. For Example if your Floor height is “2695mm” then the **Normandie** Staircase needs to be altered to 13 Risers. The Going for 13 Risers is “1955mm” indicated at the bottom of the diagram.
