Top Operating Instructions for Piccolo Premium Concertina Ladder

- (1) Locate **forward facing section** of the hook, on the Operating Pole provided, onto the bolt protruding from the right hand side of the Ladder near the top (as viewed from above)
- (2) Push down and out to enable Ladder to extend as far forward as possible before the Ladder foot comes to rest on the ground.
- (3) The Ladder can now be climbed down safely.
- (4) If Ladder is required to be returned to its stored position above, engage the **rear facing section** of the pole hook onto the fifth or sixth tread from above and pull upwards until fully retracted.
