

## Description

- ▲ The ASF is ideal for any application requiring a good quality timber ladder as permanent access.
- ▲ Manufactured from ash strings and treads.
- ▲ Comes flat packed with all necessary screws ready for installation.
- ▲ Treads housed into the strings.
- ▲ Provided with 'L' brackets for fixing the ladder into position.
- ▲ 70° fixed timber ladder.
- ▲ The ASF Ladder measures 400mm wide.
- ▲ Suitable for floor to floor heights up to 3000mm.
- ▲ Individual rise is 230mm.
- ▲ Optional timber handrails in ash are also available.
- ▲ The ASF has a maximum working load of 200 kg.
- ▲ Comes ready to varnish, stain or paint.
- ▲ Also available with hook and bar set, for those times when you need to be able to remove your ladder for access (*image below*).
