

Description

- ▲ A robust, yet lightweight aluminium ladder suitable for both commercial and domestic use.
- ▲ The RSF is fitted with a timber crossbar which allows it to be positioned against a vertical structure so it can be easily climbed.
- ▲ Standard ladder positioned at 67°.
- ▲ The ladder measures 362mm wide.
- ▲ The treads measure 89mm deep and each individual tread rise is 235mm.
- ▲ The unit comes supplied with good quality ladder rubber feet enabling the user to make a comfortable and safe climb.
- ▲ Compliant with BS EN ISO 9002 Quality System.
- ▲ Additional handrails are available.
- ▲ Alternative Hook & Bar Set is an option instead of the Timber Crossbar. The hook & Bar Set allows the ladder to be removed so it can be stored in a different location when not in use.

Ramsay Straight Flight Ladder Information

Ref	Total Rise(mm)	No. of Treads	Overall Ladder Length (mm)	Weight (kg)
RSF4	up to 940mm	4	1016mm	4kgs
