

## Description

- ▲ Available in 2 diameters; 1200mm and 1400mm. The Calgary can be assembled to ascend clockwise or anti-clockwise.
- ▲ The stair is manufactured in Steel & Timber
- ▲ The stair comes with 11 standard treads plus a landing tread and can reach heights up to 2808mm.
- ▲ Min. opening sizes are 1300mm x 1300mm (1200mm diameter stair) and 1500mm x 1500mm (1400mm diameter stair).
- ▲ Available in a number of colour options (see table below).
- ▲ 35mm thick varnished beech multiplex treads
- ▲ Triangular design landing tread supplied complete with its own balustrade section
- ▲ Balustrade is made up of 25mm steel balusters and topped with a flexible 40mm PVC handrail.
- ▲ Optional upper floor balustrade is available.
- ▲ Additional baluster kits are available to reduce the space between each baluster.
- ▲ An optional riser bar kit is available, where a bar is fitted to each tread. This is to ensure the stair conforms to the 100mm gap rule (building regulations).
- ▲ Suitable for indoor use only.
- ▲ Supplied with fully illustrated assembly instructions.
