

Description

- ▲ A robust, yet lightweight aluminium ladder suitable for both commercial and domestic use.
- ▲ The RSF is fitted with a timber crossbar which allows it to be positioned against a vertical structure so it can be easily climbed.
- ▲ Standard ladder positioned at 67°.
- ▲ The ladder measures 362mm wide.
- ▲ The treads measure 89mm deep and each individual tread rise is 254mm.
- ▲ The unit comes supplied with good quality ladder rubber feet enabling the user to make a comfortable and safe climb.
- ▲ Additional Metal Handrails / Hooks & Locating Bar are available.
- ▲ Optional Metal Loft Exit Grab Rails in Black (measure 900mm high & 515mm wide).
